

Asian Reading Group for the  
Metaphysics of Science

First programme, Fall 2026

# The Scientific Image

Bas C. van Fraassen (1980)

**Wednesdays at 3:30 pm Singapore time (UTC+8)**

Every other week, 21 October 2026 - 13 January 2027

Hybrid: online and in person at NUS or NTU

Room and online joining details to follow.

We may also invite scholars working in related areas to join us for some sessions.

## Tentative reading schedule

| Date                | Main reading                                             | Supplementary readings                                                                                                       |
|---------------------|----------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| 21 Oct<br>Session 1 | Chapter 1<br>Introduction                                | Michela Massimi (2007)<br><i>Saving Unobservable Phenomena</i><br>James Ladyman (1998)<br><i>What is Structural Realism?</i> |
| 4 Nov<br>Session 2  | Chapter 2<br>Arguments Concerning<br>Scientific Realism  | TBD                                                                                                                          |
| 18 Nov<br>Session 3 | Chapter 3<br>To Save the Phenomena                       | TBD                                                                                                                          |
| 2 Dec<br>Session 4  | Chapter 4<br>Empiricism and<br>Scientific Methodology    | TBD                                                                                                                          |
| 16 Dec<br>Session 5 | Chapter 5<br>The Pragmatics<br>of Explanation            | TBD                                                                                                                          |
| 30 Dec<br>Session 6 | Chapter 6<br>Probability: The New<br>Modality of Science | TBD                                                                                                                          |
| 13 Jan<br>Session 7 | Chapter 7<br>Gentle Polemics                             | TBD                                                                                                                          |

Supplementary readings marked TBD will be chosen together as the group progresses.
